Eager to contribute technical skills and continue learning in a profesional team.

CAMPUS PROJECT

PustakaConnect — Digital Library Management System
github.com/Riyansyah78/library-app

- Designed PustakaConnect, a digital library management web app, using React, Tailwind CSS, and Supabase.
- Built core features including book borrowing requests, book ratings, and an admin dashboard for managing the library.
- Developed the book catalog system, letting admins add, update, and delete book records with cover images.

EDUCATION

Software Engineering Technology · Politeknik Mardira Indonesia 2025 – Present

Software Engineering (RPL) · SMK Negeri 1 Majalengka 2022 – 2025

EXPERIENCE

IT Support Intern · CV. Griya Sarana Informatika July 2024 – November 2024
Cirebon, Indonesia

- Handled 2–3 helpdesk tickets per day, covering hardware, software, and network troubleshooting.
- Installed, set up, and maintained computers, printers, and other office equipment.
- Helped set up LAN/WAN networks, switches, routers, and WiFi access points.
- Wrote technical guides and user documents to help resolve repeat problems faster.
